

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the USF.

We use our telephone mainly for emergencies while traveling.. Any increase in cost would deter us from having a telephone in the first place.

I use my wireless phone for safety, security and convenience. I don't want to lose these.

Besides, aren't we taxed enough now!

Sincerely,

Kenneth Bellows
